Way to difficult to play, esy to complicated, There are lgames with learning curves and then there are games like this.... very nice....... Damntzione. This game has the most shades of brown. Between average to a solid point and click adventure game. Gameplay is not bad. The down side is the lip sync. Mad Orange has done a great job. Fans of adventure games would find this interesting. The price for this game should be lower by now (since the original release date). Maybe $10.? Overall... 8\/10.. First random encounter: "Hornet A does 34 damage! +DEATH", insta-killing my healer. Hornet B and Hornet C one-shot my other two party members the same way. Game Over at the first encounter. Okay then. I don't really have the patience to save-scum my way through this until the end, I think.

I don't own the first game so I don't know if it does a better job at combat balancing. Granted, character sprites changing based on damage is a nice touch, but not unique to this game. Also the in-game sprites only vaguely resemble their large counterparts.

It's an RPG maker game in a sea of many, but it lacks a particular pull. Unless you like the anime waifu bait, I guess? But even then I'm sure there's better RPG maker games with waifus.. Worth the Price of Admission at $3.00
but it IS very short. (3 levels of 3 stages each)

While concpets might get old if it dragged on, and there isnt enough variety in the types of trees you can build for it not to get stale if there were say 20+ levels, Everything here is so polished that you cant help but wonder why they didnt include 3-4 more trees to prolong it 3-4 more levels (of 3 stages each) because it IS worth your time.

Just it wont consume much of it :)

Unplayable -5$. 10/10 would buy again. 8-Bit Thrills!!!!!!!!!!!!. The spatial RTS all about the most expansive empires you can think of and the Newtonian physics.
Only limit to your game size is your hardware, and this game does not require hardcore hardware to run large games, at all. Cyberoque - fun action with a side view. Recommend!. English review is below the chinese one
是一款有趣的扫雷游戏！！！十层以前难度不大，后期需要动动脑子和一些运气。十层以后要注意一下怪物的攻击力和自己的血量，不然容易突然gg然后失去角色。8小时解锁了所有的人物，游戏进度可以保存，可以用零碎的时间玩。不同角色的玩法还是很不一样的，有简单的也有难的。总体来讲是个有意思的rl游戏，希望以后能推出更多模式

As a person who loves minesweeper, Radical Dungeon Sweeper offers me a chance to review my love of minesweeper. Different characters have very different playing style, some are easier and some are significantlly hard. I unlock all 8 characters after playing for 8 hours, and I really enjoy this game. Just a reminder that you need to pay attention when youre at level 15 after, because you can die by attacking a monster that has 10 hp(That's how I lose my favourite character ;-;). All in all, it's a fun rl game and hope my reveiw can help you :D Hope there can be more than one game mode. Just go ahead and buy it.

⍰⍰⍰ Small discounts list on our Games and Bundles! ⍰⍰⍰:
Hello dear players! Today we have prepared for you small list of our games, which can be purchased with a good discount!

Games with discount:. **UPDATE: Steam Workshop on Mac and Linux, aquatic harvester**:
Today's update fixes a bug where custom specifications could not be uploaded to Steam Workshop on Mac and Linux.

It also includes a new version of the "aquatic harvesting robot" puzzle, now called the "kelp harvesting robot", which should be less of an arbitrary difficulty spike. The old version of the puzzle is archived under code "3113".. **Please take a minute to help me improve the game (5)**:
Hello guys! I am working on huge content patch right now, which is hopefully be released next week, meanwhile, once again, I wanted to ask a couple of minutes of your time to complete a couple of simple polls to help me improve the game balance.

Which ship type you are using the most:

Thank you for your time!. **Bright Memory - Episode 1 (Update 1/14)**:
fixed: player cannot move after being hit by a flashbomb.
fixed: player drops out of the map in some areas.
fixed: Player standing on stone monster unable to move problem.
fixed: XP will reset after death.
fixed: Climbing rocks will get stuck in the model.
fixed: In Forest keeper battles, the player stands on a board and the monster doesn't move.

In addition, there are more than a dozen bugs in my list,when these fixes are complete, I'll be gathering feedback and adding more things like control support and ultra wide screen adaptation.😄. **Visionarium First Update**:
Hello all!

I hope you are having fun experiencing Visionarium. After some valuable feedback I started working on a first update.

Here are some things that im working on:

- Better menu ui and more stable gaze buttons.
- Adding Vive controller button layout screen.
- Programmed particles stay on screen when grabbed.
- Some extra details
- Microphone input, Yes! you can soon use your voice or musical instruments
  that will react to the visuals.

More info and the update will follow soon!
