very good

but no saves :(. No ability to save. you play as the coolest villain out of any game ever made, EVER, in the game, also game difficulty is increased by 75%, reason for that is... you can't heal yourself, but the only way to heal yourself is to drink people's "blooddd". I loved the DLC but it sucks how you can't save :\

. Broken as hell.. You can kill wooden unicorns it's worth everything. One of the poorest designed boss fights I've ever seen. Not fun in the slightest.. Extremely different from the main game and gives you a bit of a back story on Vlad. Difficult DLC at that too. Played with a friend and we had to essentially learn how to play this DLC so it feels like you're playing a different game. Loved the easter eggs and parody humor, once again.. how did any of these guys below not finish this dlc in one hour

why would you need saves

use the time warp for vlad, too.

not exactly worth 5 bucks, as opposed to the stars are left, by the way. It's cool, but eh. at least there's the challenge maps.. There is no save. So first you spend 30minutes of way too easy fights to get to a boss fight that lasts longer than rest of the level. Also it sucks.

This DLC is like a vampire; it sucks.. NO SAVES! Very annoying...
